About Mirka

Mirka Ltd is a global company and part of the family owned KWH Group Ltd. Mirka's business idea is to offer world leading comprehensive surface finishing solutions.

Our business focuses on our customers' needs. Continuous improvements of our operations, our expertise and our work with our customers help us to offer tailored systems and commercial comprehensive solutions that are supported by a wide range of technically superior abrasives and polishing products as well as innovatively designed tools.

97% of our products are exported and sold across the globe through our subsidiaries and importers in more than 100 countries. Our main production facilities, head office and R&D are situated on the West Coast of Finland in Jeppo

Our Sustainability Commitments

At Mirka we have a passion for innovation and a mission to give people the opportunity to perform better. This way of working that we call the Mirka Way, has been guiding our growth and development as a family-owned company for over 80 years.

In a world facing climate change, biodiversity loss and social inequalities, we believe our mission has never been more critical. These challenges call for more sustainable practices. Our sustainability commitments focus on three key areas: a cleaner environment, creating a positive social impact and advancing circularity.

✓ **Commitments & Transparency**
At Mirka we have a passion for innovations and a mission to give people the opportunity to perform better.

✓ **Circularity**
At Mirka, we are committed to sustainability through circularity. We see it not just as a way to reduce our environmental footprint, but more importantly, as a tool to reshape the entire industry—moving away from a take-make-dispose mindset toward a more sustainable and regenerative approach.

✓ **Positive Social Impact**
Through innovation and commitment to safety, we drive a positive social impact that transforms workplaces and improves lives.

✓ **Cleaner Environment**
Committed to sustainability, we strive to reduce our greenhouse gas emissions by 55% by 2035, with a strong focus on optimizing the responsible use of raw materials.

✓ **Networks & Memberships**
A more sustainable future requires collaboration, ecosystem thinking, and circular strategies - no company can achieve the green transition alone. We contribute by supporting our customers and stakeholders in their sustainability

✓ **Compliance and Governance**
Our company and way of working is based on our core values: Responsible, Committed, Innovative and Respectful. Rooted in our corporate values, our compliance and quality systems ensure that our products and operations meet industry regulations, environmental requirements, and custom

GOLDEN FINISH

Scan the QR code and check out the video.

- A unique, fast and simple post paint solution
- Standardised step-by-step process ensures consistent high quality
- Sanding in two steps for a smooth, uniform surface
- Polishing in two steps for the perfect high-gloss finish
- Includes microproduct for sanding small defects and micro fiber cloth for finishing touches
- Recommended tools: Mirka DEROS 650CV for sanding, Mirka AOS-B 130NV for spot repairs and Mirka PS 1437 for polishing
- The special elastic foam gives a high cut performance and a long lifetime
- The waffle shape removes all remaining haze and leaves a very high gloss

Mirka is a recognized world leader in developing advanced surface finishing technologies. Thanks to its simplicity and speed, Mirkas's Optimized Surface Preparation System is set to replace traditional thinking. The system is truly unique thanks to an innovative combination of high-tech abrasives, tools and processes that cannot be compared to anything else on the market today.

Mirkas's OSP system focus on speed, control, simplicity and repeatability instantly makes traditional methods inefficient and obsolete. Standardized repair process is one of the keys to get the smooth workflow in the body shop. With the OSP system it is a clear and simple process which impacts to keep the focus and achieve the goal for the day – correct accomplished repairs on time.

Some of the benefits:

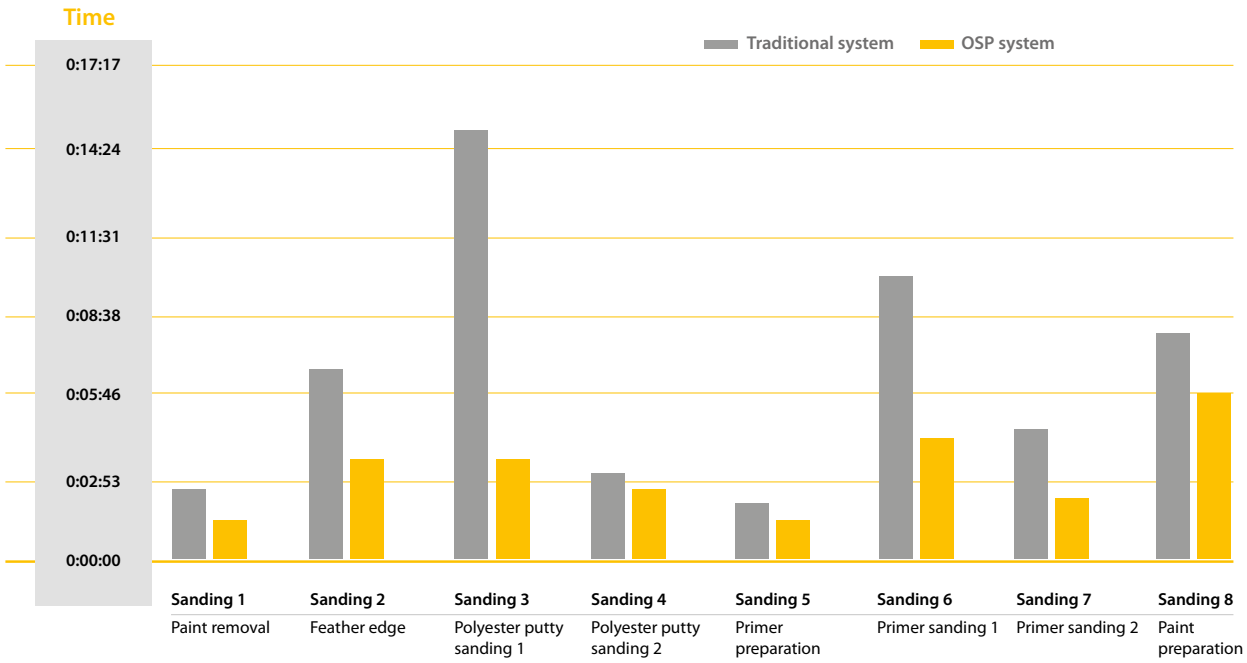

- **Increased sanding speed and efficiency** saves time on every job which boosts productivity and profitability.
- **Standardized, step-by-step processes** means predictable, consistent quality on every repair.
- **Dust free** – the workshop stays cleaner which helps reduce the risk of dust inclusions in paintwork and minimizes the need for de-nibbing.
- **Healthier** workshop environment for staff.

Time studies performed in body shops show a time saving in sanding process of 30% thanks to the OSP system.

MIRKA OPTIMIZED SURFACE PREPARATION SYSTEM

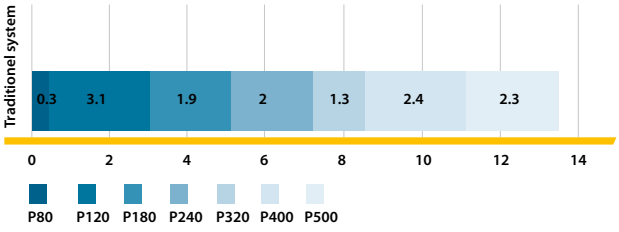

Sanding time comparison

OSP vs. Traditional system

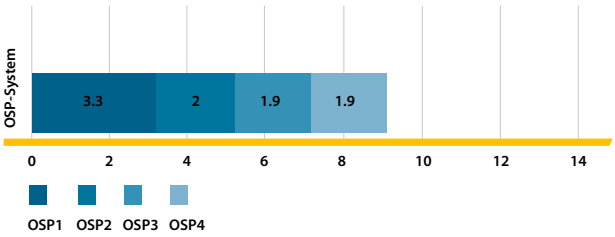

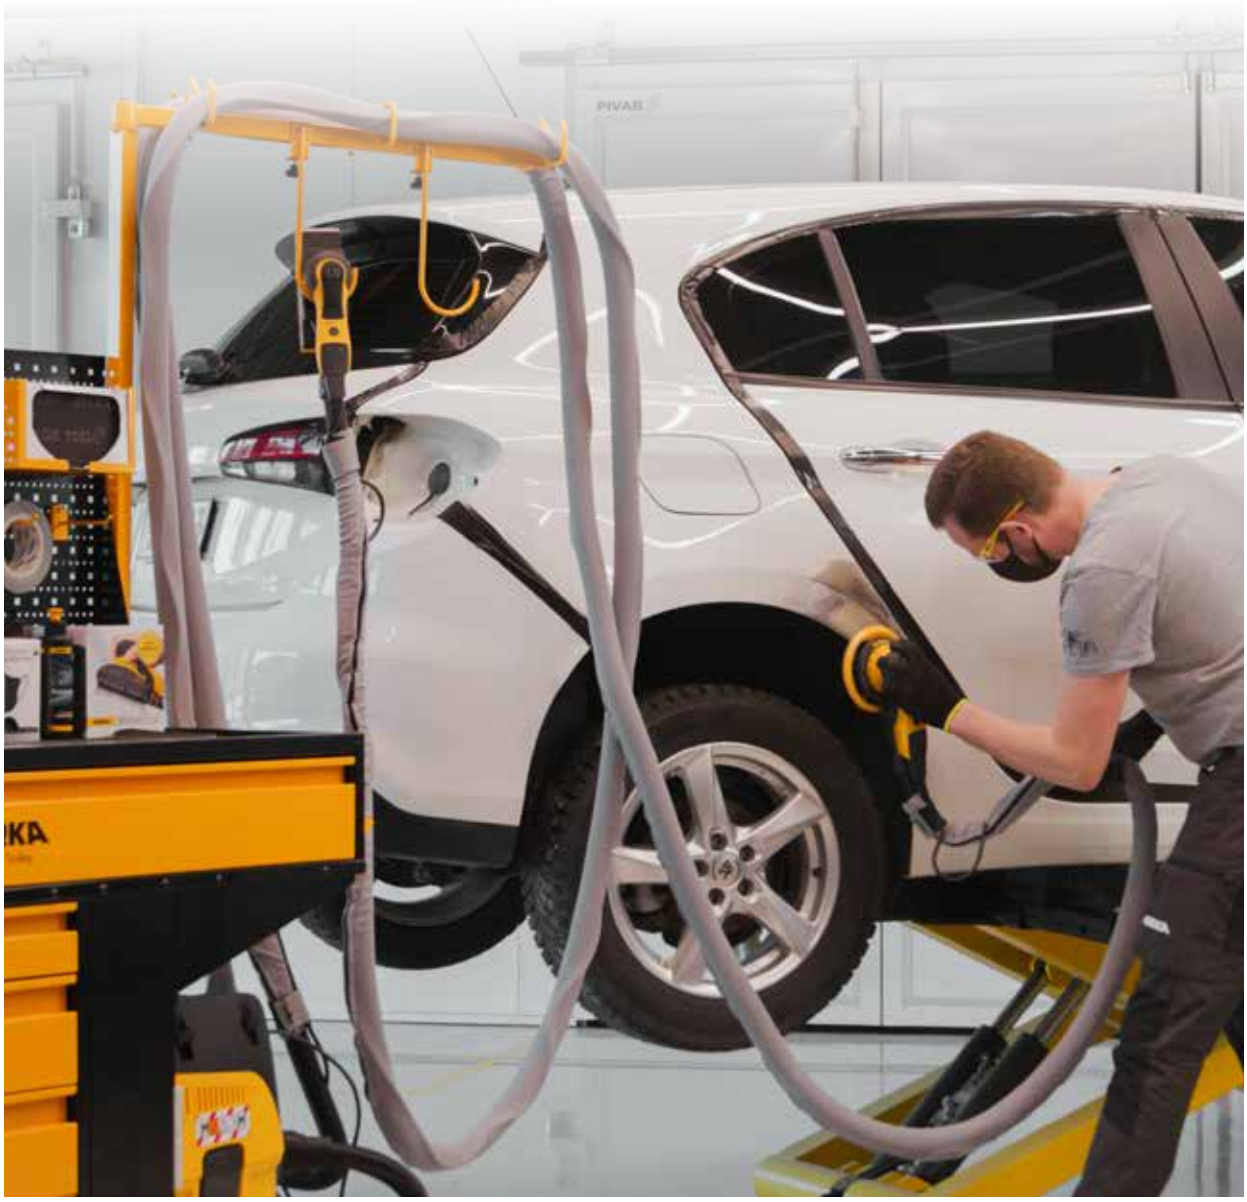

The simplified OSP system gives a reduced abrasive material consumption. Facts based on studies in body shops show an abrasive material decrease of 32%.

Abrasive consumption
– Traditional system: **Average 13,3 pcs**

Abrasive consumption
– OSP system: **Average 9 pcs**

OSP System

The OSP **Small to Medium** Repair Process

Paint removal/Feather edge

OSP PRODUCT

1 1 2 2

USE:
- Disc or strip No 1 for paint removal.
- Disc or strip No 2 for feather edge.

Polyester filler

USE:
- Strip No 1 to level polyester filler.
- Strip No 2 for final leveling and as first step on fine polyester filler.

Primer preparation

USE:
- Disc No 3 to prepare the repaired area for primer by reducing scratches and expanding the feather edge.

OSP PRODUCT

1 2 3

Finishing

USE:
- Disc or strip No 3 to level structure on primer.

USE:
- Soft pad No 4 for hard-to-reach areas.

USE:
- Finalize the sanding with disc No 4.

OSP PRODUCT

MIRKA

Technical Specifications

Sector symbols

Abralon®

Grain	Silicon carbide
Bonding	Special resin
Backing	Knitted fabric on foam
Grit range	180, 360, 500, 600, 1000, 2000, 3000, 4000
Characteristics	Extreme flexibility Quickly creates a smooth surface finish even on contours Accelerates polishing operations

Abralon® J3

Grain	Silicon carbide
Bonding	Special resin
Backing	Knitted fabric on foam
Grit range	360, 500, 600, 1000, 2000, 3000, 4000
Characteristics	Consistent sanding pattern Flexible 3 mm foam thickness

Abralon® J5

Grain	Silicon carbide
Bonding	Special resin
Backing	Knitted fabric on foam
Grit range	360, 500, 600, 1000, 2000, 3000, 4000
Characteristics	Flexible Particularly suitable for uneven surfaces 5 mm foam thickness

Abranet®

Grain	Aluminium oxide
Bonding	Resin over resin
Backing	Polyamid net
Grit range	80, 100, 120, 150, 180, 240, 320, 360, 400, 800
Characteristics	Practically dust-free sanding Cleaner and healthier work environment Long life-time and great profitability

Abranet® Ace

Grain	Ceramic
Bonding	Resin over resin
Backing	Polyamid net / Polyester net
Grit range	80, 120, 150, 180, 240, 320, 400, 500, 600, 800, 1000
Characteristics	Practically dust-free sanding Cleaner and healthier work environment Long lifetime even on hard surfaces

Abranet® Ace HD

Grain	Ceramic
Bonding	Resin over resin
Backing	Polyamid net
Grit range	40, 60, 80, 120
Characteristics	Practically dust-free sanding High aggressiveness and removal rate Very long lifetime

Abranet® Max

Grain	Aluminium oxide
Bonding	Resin over resin
Backing	Polyamid net
Grit range	80, 100, 120, 150, 180, 220, 240
Characteristics	High removal rate thanks to hardened aluminum oxide grains Cool touch

Abrasive Yellow Basic

Grain	Aluminium oxide
Bonding	Resin over resin
Backing	E-paper/D-paper
Grit range	P40-P180, P240
Characteristics	Durable all-round abrasive product Strong paper backing that resist wear and tear

MIRKA

Technical Specifications

Autonet

Grain	Aluminium oxide
Bonding	Resin over resin
Backing	Polyamid net / Polyester net
Grit range	80, 120, 150, 180, 240, 320, 400, 500, 600, 800
Characteristics	Practically dust-free sanding Cleaner and healthier work environment High performance and a long lifespan

Avomax Antistatic

Grain	Aluminium oxide
Bonding	Resin over resin
Backing	Antistatic T-paper/F-paper
Grit range	40, 60, 80, 100, 120, 150, 180, 200, 240, 320
Characteristics	For soft materials Long lifetime Sturdy anti-static paper

Coarse Cut

Grain	Aluminium oxide
Bonding	Resin over resin/Progressive Bond™
Backing	Specially reinforced F-paper
Grit range	36, 40, 60, 80, 100, 120, 150
Characteristics	Very durable edges High stock removal Optimal grain adhesion

Galaxy

Grain	Ceramic/Aluminium oxide
Bonding	Low VOC resin system
Backing	Polyester film
Grit range	40, 60, 80, 100, 120, 150, 180, 220, 20, 320, 400, 500, 600, 800, 1000, 1200, 1500, 2000
Characteristics	Self-sharpening ceramic grains Excellent clogging resistance Multi purpose product, suitable of both soft and hard materials

Gold

Grain	Aluminium oxide
Bonding	Resin over resin
Backing	D-paper/C-paper
Grit range	40, 60, 80, 100, 120, 150, 180, 220, 240, 280, 320, 400, 500, 600, 800
Characteristics	Flexible and aggressive All-round high quality product Very good price-performance ratio

Gold Soft

Grain	Aluminium oxide
Bonding	Resin over resin
Backing	C-paper with PE foam
Grit range	320, 500, 800
Characteristics	Flexible Soft edges For profile grinding Optimal foam strength

Goldflex Soft

Grain	Aluminium oxide
Bonding	Resin over resin
Backing	A-latex paper, PE foam
Grit range	150, 180, 220, 240, 320, 400, 500, 600, 800, 1000
Characteristics	Flexible thanks to foam backing Specially suitable for edges and profile sanding

Hiolit JCA2A0

Grain	Aluminium oxide
Bonding	Brown
Backing	J-cloth cotton
Grit range	P60-P400
Characteristics	Flexible cloth backing for smooth profile sanding. Fast cut and and long lifespan.

Hiolit XO

Grain	Blue fired aluminium oxide
Bonding	Resin over resin
Backing	Polyester cloth, X-weight cotton cloth
Grit range	36, 40, 50, 60, 80, 100, 120, 150, 180, 240
Characteristics	Universal abrasive for belt sanding Excellent edge wear resistance and durability

Iridium®

Grain	Ceramic/Aluminium oxide
Bonding	Low VOC resin system
Backing	Latex paper, /C-Paper
Grit range	40, 60, 80,100, 120, 150, 180, 220, 240, 320, 400, 500, 600
Characteristics	No clogging and great dust-extraction Long lifetime Noticeably sharper grain

MIRKA

Technical Specifications

Iridium® Soft

Grain	Aluminium oxide
Bonding	Low VOC resin system
Backing	Polyurethane on foam
Grit range	400, 500, 600, 800, 1000, 1200, 1500, 2000
Characteristics	Flexible foam backing: conforms to curves Clog-resistant: Multifit™ dust extraction Long Lifetime

Iridium® SR

Grain	Silicon carbide
Bonding	Slurry
Backing	3 MIL Polyester film
Grit range	3µm (P5000), 5µm (P3000), 7µm (P2500)
Characteristics	Excellent consistency Extremely long use life Robust backing Fast and easy to polish out

Iridium® Styro

Grain	Ceramic/Aluminium oxide
Bonding	Low VOC resin system
Backing	Latex paper, C-Paper
Grit range	40, 60, 80
Characteristics	Large holes improve extraction Remarkable flexibility and excellent sanding

Jepuflex Antistatic

Grain	Aluminium oxide/Silicon carbide
Bonding	Resin over resin
Backing	Antistatic T-paper/F-paper
Grit range	36, 40, 50 ,60, 80, 400, 100, 120, 150, 180, 240, 320, 400
Characteristics	Optimal for sanding hard wood All-round product that works well on metal, plastic and lacquer. Very durable.

Microstar

Grain	Aluminium oxide
Bonding	Resin over resin
Backing	Polyester film
Grit range	800, 1000, 1200, 1500, 2000, 2500
Characteristics	Produces a fine scratch pattern Intended for dry sanding only Designed for matting and paint rectification

Mirka® File belt CER

Grain	Ceramic
Bonding	Resin over resin
Backing	Y Polyester
Grit range	36-120
Characteristics	Ideal for tough sanding applications The ceramic grains provides a high removal rate at low and medium pressure Long life time and good surface finish

Mirka® File belt ZIR

Grain	Zirconia
Bonding	Resin over resin
Backing	YY Polyester Cloth
Grit range	24-120
Characteristics	Ideal for stainless metal sanding applications The zirconia grains provides a high removal rate and good surface finish

Mirka Yellow Abrasive Soft

Grain	Aluminium oxide
Bonding	Resin over resin
Backing	C-paper with PE foam
Grit range	40, 60, 80, 100, 120, 150, 180, 240
Characteristics	Ideal for plaster sanding High stock removal and long lifetime Optimized suction

Mirlon®

Grain	Aluminium oxide (GP, VF)/Silicon carbide (UF, MF)
Bonding	Resin
Backing	Non-woven
Grit range	General Purpose - 320, Very Fine - 360, Ultra Fine - 1500, Micro Fine - 2000
Characteristics	High flexibility More power through innovative spreading For both wet and dry sanding Strong and long-lasting

Mirlon Total®

Grain	Aluminium oxide (VF)/Silicon carbide (XF, UF, MF)
Bonding	Resin
Backing	Non-woven
Grit range	Very Fine - 360, Xtra Fine - 800, Ultra Fine - 1500, Micro Fine - 2500
Characteristics	High flexibility, Strong and long-lasting More power through innovative spreading For both wet and dry sanding

MIRKA

Technical Specifications

Novastar® Flex

Grain	Ceramic/AlO
Bonding	Resin over resin
Backing	PU Film
Grit range	400, 600, 800, 1200, 1500
Characteristics	Excellent finish Durable and flexible Colour coded grits Minimal loading and pilling

Q.Silver®

Grain	Aluminium oxide P80 - P500, Silicon carbide P600 - P1500
Bonding	Resin over resin
Backing	D-paper/C-paper/B-paper
Grit range	80, 100, 120, 150, 180, 220, 240, 320, 400, 500, 600, 800, 1000, 1200, 1500
Characteristics	Optimal aggressiveness Fast removal Long lifetime

Sica Closed

Grain	Silicon carbide
Bonding	Resin over resin/Antistatic
Backing	Antistatic F-paper
Grit range	80, 100, 120, 150, 180, 220
Characteristics	For belt sanding and sanding of MDF and other materials containing mineral debris Fully antistatic

Sica Open

Grain	Silicon carbide
Bonding	Resin over resin/Antistatic
Backing	Antistatic F-paper
Grit range	80, 120,150, 180
Characteristics	For sanding soft, resin-rich wood types Limit dust loading and prevent clogging Fully antistatic

Sica Fine Stearat

Grain	Silicon carbide
Bonding	Stearate-coated resin over resin/Antistatic
Backing	Antistatic E-paper
Grit range	240 - 320, 400 - 800
Characteristics	Produces minimal dust load High-quality surface finish Fully antistatic

Ultimax®

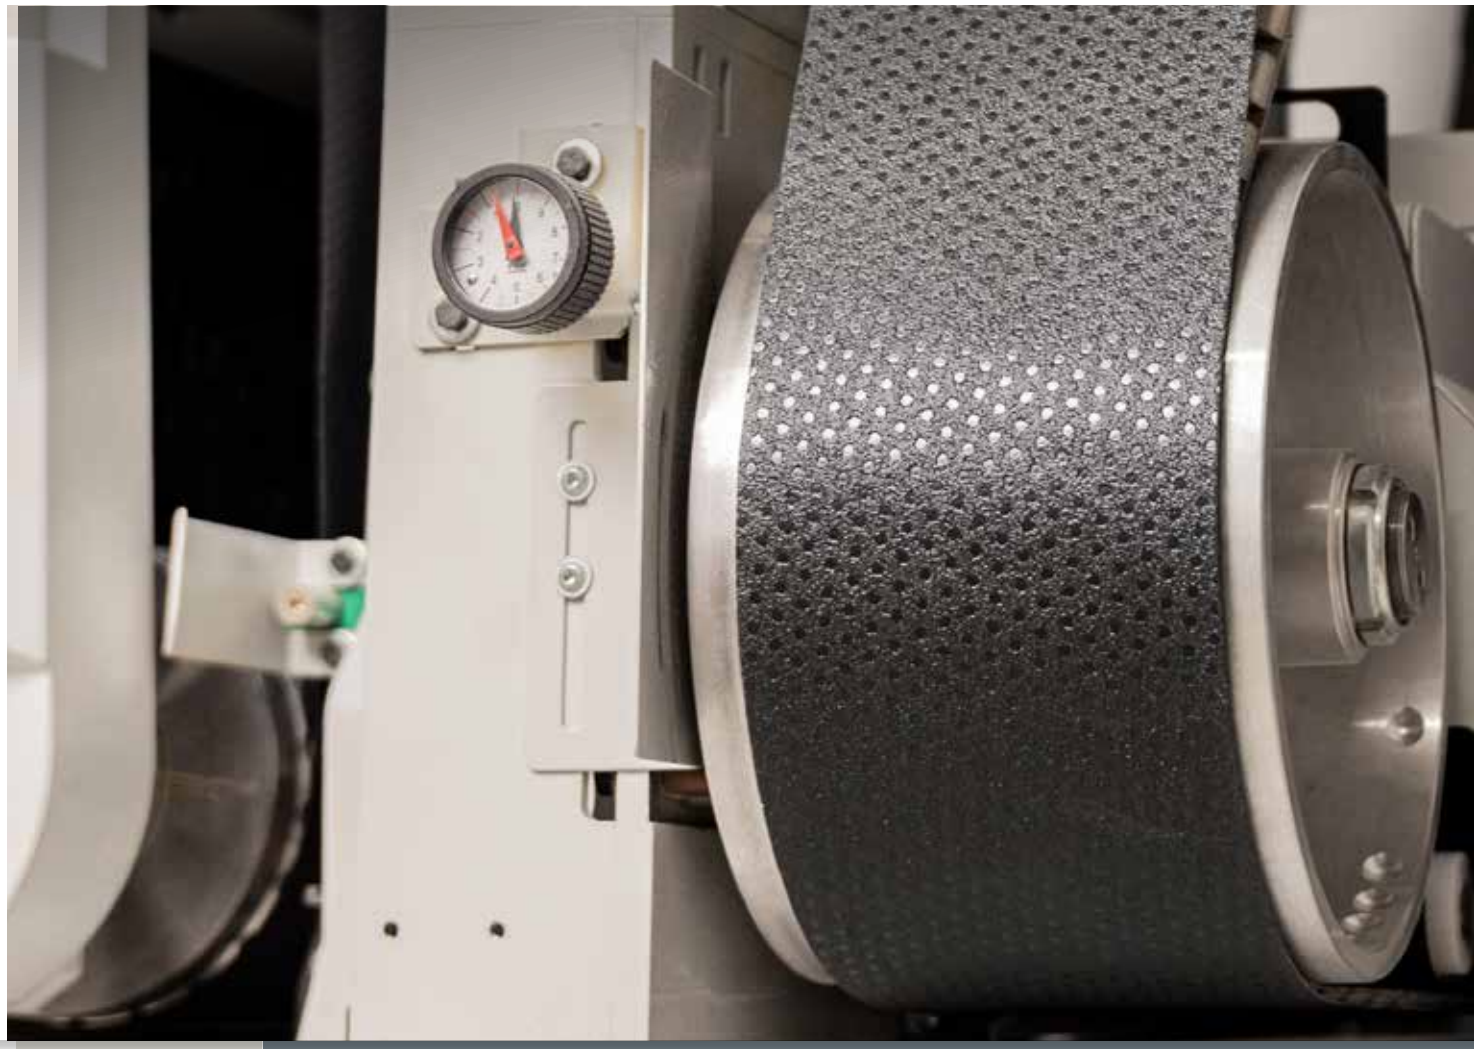

Grain	Aluminium oxide
Bonding	Resin over resin
Backing	Antistatic T-paper/F-paper
Grit range	40, 60, 80, 100, 120, 150, 180, 240, 320
Characteristics	Low heat development Particularly suitable for hardwood and veneer Long lifetime Very even sanding pattern

Ultimax® Black

Grain	Silicon carbide / Stearate-coated resin over resin
Bonding	Resin over resin
Backing	Antistatic T-paper / Antistatic E-paper
Grit range	80–220 / 240–1000
Characteristics	Premium long-life sanding belt better, more consistent finishing quality Highly resistant to breakage Surface cavities prevent clogging

Ultimax® Ligno

Grain	Ceramic/Aluminium oxide
Bonding	Low VOC resin system
Backing	Latex paper, D-paper/ C-paper
Grit range	40, 60, 80, 100, 120, 150, 180, 220, 240, 320, 400
Characteristics	Hourglass abrasive pattern Tailored for wood sanding applications Long lifetime Clog-resistant

ABRASIVE BELTS

Premium Net, Paper, and Cloth Sanding Belts

Mirka's premium belts are designed with durability and performance in mind, providing a smooth surface with minimal variation on the surface finish.

Abranet® Max

Technical Specifications

Grain	Aluminum Oxide
Bonding	Resin over Resin
Backing	Net
Coating	Closed
Color	Brown
Joint	T (Standard)

FEATURES AND BENEFITS:

- Tough aluminum oxide grain gives a high cut rate on harder wood types and materials
- Extremely long lifetime compared to conventional abrasive belts
- The symmetric net structure enables an efficient cut and stock removal
- Resists clogging on resinous wood types or soft materials

Hiolit® JCA2A0

Technical Specifications

Grain	Aluminum Oxide
Bonding	Resin over Resin
Backing	Flexible cotton cloth
Coating	Semi-Open
Color	Maroon
Joint	T, TT

FEATURES AND BENEFITS:

- Flexible properties and high quality sanding results make it ideal for metal and wood workshops
- Durability and excellent edge wear resistance make it ideal for sanding profiles and seams
- Ideal for aggressive sanding where flexibility is needed

Hiolit® XO

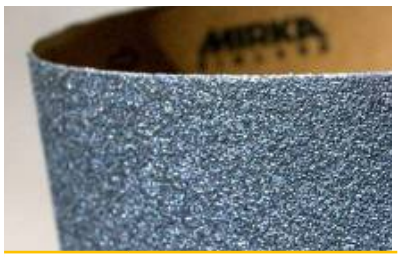

Technical Specifications

Grain	Blue fired Aluminum Oxide
Bonding	Resin over Resin
Backing	Polyester cloth / cotton cloth
Coating	Semi-open
Color	Maroon
Joint	T, TS, TT

FEATURES AND BENEFITS:

- Excellent wear resistance and durability
- Designed for sanding operations where large amounts of material need to be removed
- Suitable for aggressive sanding
- Produces high quality results on challenging materials

Sica Closed

Technical Specifications

Grain	Silicon Carbide
Bonding	Resin over Resin / Antistatic
Backing	Antistatic F-Paper
Coating	Closed
Color	Black
Joint	A, T, TS, TT

FEATURES AND BENEFITS:

- The antistatic treatment reduces dust loading to keep machines and work piece cleaner
- Fine scratch pattern produces a quality final result after surface treatment
- Designed for sanding of hardwood and MDF
- Well suited to use after Jepuflex to achieve a better finish

Sica Fine Stearate

Technical Specifications

Grain	Silicon Carbide
Bonding	Stearate-coated resin
Backing	Antistatic E-Paper
Coating	Semi-open
Color	Grey
Joint	A

FEATURES AND BENEFITS:

- Full stearate coating for minimal dust load
- Can reduce topcoat use
- Variety of belt styles

Jepuflex Antistatic

Technical Specifications

Grain	Aluminum Oxide/Silicon carbide
Bonding	Resin over Resin
Backing	Antistatic T-Paper / F-Paper
Coating	Closed
Color	Maroon
Joint	A, T, TS, TT

FEATURES AND BENEFITS:

- Strong, reliable, antistatic paper
- Full resin bonding and aluminum oxide grain guarantee durability
- Silicon carbide grain used in the coarsest grit
- Perfect for sanding of hard wood such as beech, birch, and oak
- Multi-purpose - works well on metal, plastic, and lacquer

File Belts

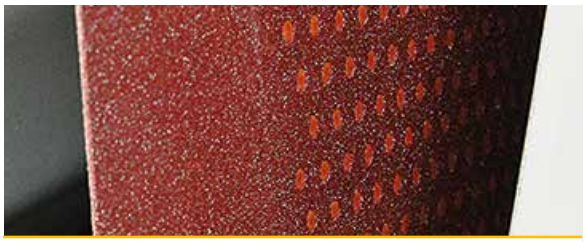

Technical Specifications	
Grain	Ceramic blend
Bonding	Resin over resin
Backing	Y Polyester
Coating	Semi-open
Color	Red

FEATURES AND BENEFITS:

- Improved ceramic blended self-sharpening grains
- Designed for high alloy steel and super alloys
- Subtle breakdown of ceramic grain produces much sharper edges which allows for lower temperature contact area and extended life
- Optimum stock removal

Ultimax® Belts

Technical Specifications	
Grain	Aluminum Oxide
Bonding	Resin over Resin
Backing	Antistatic T-paper/F-paper
Coating	Closed with Selective Coating®
Color	Brown
Joint	B -Joint

FEATURES AND BENEFITS:

- Selective Coating® Technology prevents clogging
- Aggressive performance with cool sanding surface
- Long life and excellent edge wear resistance
- Reduced material usage per job

Ultimax® Black

NEW

Technical Specifications	
Grain	Silicon Carbide
Bonding	Antistatic (Grits 80-220) Stearate-Coated Resin over Resin (Grits 320-600)
Backing	Antistatic T-paper (Grits 80-220) Antistatic E-paper (Grits 320-600)
Coating	Closed with Selective Coating® (Grits 80-220) Semi-Open with Selective Coating (Grits 320-600)
Color	Black (Grits 80-220), Grey/Black (Grits 320-600)
Joint	A -Joint

FEATURES AND BENEFITS:

- Selective Coating® Technology stays sharp and cool without clogging
- Strong paper doesn't break, fold or twist
- Stable and antistatic for consistent performance
- New Silicon Carbide grain for high removal rate

DID YOU KNOW

Mirka's belt abrasives are the perfect companion to your belt sanding machines. They stand up to your toughest production sanding applications. The large sanding area gets the job done fast whether it's hardwood, metal, or plastic.

- Standard and Custom Lengths
- Net, Cloth, and Paper
- Anti-Static Option

ABRASIVES

A world leader in surface finishing, Mirka manufactures a complete range of technically superior abrasives

Mirka offers abrasives in all shapes and sizes, tailored for every sanding application, including the original net abrasives for dust-free sanding. Designed for professionals, our premium abrasives deliver superior performance, helping you to sand more efficiently and to achieve a flawless finish every time.

ABRALON® • Discs

Technical Specifications

Grain	Silicon carbide
Bonding	Special Resin
Backing	Knitted fabric on foam
Coating	Special Abralon® method
Color	Gray
Attachment	Grip
Foam Density	33 kg/m²
Foam Thickness	6.5 mm

FEATURES AND BENEFITS:

- Combines benefits of abrasive cloth and non-woven products
- Constructed of fabric face, foam center and a grip backing
- Abrasive grains are bonded evenly to the fabric face
- Can be used for dry or wet sanding
- Open cell design holds large amounts of water or solvent for lubrication and cooling

Foam Density	62 kg/m²
Foam Thickness	5 mm
Grit Range	P180, P360, P500, P600, P1000, P2000, P3000, P4000

- Unique foam based product for an ultrafine surface finish
- Leaves a smooth surface finish prior to polishing
- Suitable for all kinds of material, both smooth and profiled surfaces
- Speeds up the polishing process
- Long lasting thanks to the open and flexible weave construction that allows water and air to pass freely.
- Easy to use. Recommended to use wet.

Technical Specifications

Grain	Aluminum oxide
Bonding	Resin over resin
Backing	PA net
Coating	Closed
Color	Brownish
Grit range	P80-P180, P240, P320-P1000

FEATURES AND BENEFITS:

- Net abrasives are a key component for dust-free sanding
- Removal of dust particles eliminates loading and pilling problems
- Woven mesh backing works with hook and loop attachment
- Designed for dry sanding by machine or by hand
- Available in discs, sheets, and rolls

Abranet® Ace

Net Abrasive

Technical Specifications

Grain	Ceramic/Ceramic coated
Bonding	Resin over resin
Backing	PA net / PES net
Coating	Closed
Color	Light Maroon
Grit range	P80-P240, P320-P1000

FEATURES AND BENEFITS:

- Developed to achieve outstanding results on challenging surface conditioning and repair applications
- Well-designed for metal applications
- Removal of dust particles eliminates loading and pilling problems
- Improved woven mesh backing offers increased strength and edge wear
- Net abrasives are a key component for dust-free sanding

Technical Specifications

Grain	Ceramic / ceramic coated
Bonding	Resin over resin
Backing	PA net
Coating	Closed
Color	Brown
Grit range	P40-P120

FEATURES AND BENEFITS:

- Ceramic grains allow for maximum cutting speed and consistent performance across a variety of surfaces and substrates
- Coarse grit range makes this ideal for aggressive stock removal
- Features exceptional resistance to edge wear and clogging
- Net abrasives are a key component for dust-free sanding

Unique net abrasive for dust-free sanding. Universal product suited for a broad variety of sanding applications and especially developed for the wood industry.

ABRANET® NC

- Non-corrosive (NC) net abrasive for sanding aluminium/painted aluminium parts that may not be contaminated with corrosive agents
- Significantly lower heavy metal content than corresponding traditional abrasives
- Time-saving and cost-effective dust-free sanding
- Extremely long life thanks to the net structure (up to 10 times longer than standard abrasives)
- Suitable for all sanders regardless of hole configuration

ABRANET® YELLOW • Discs

Technical Specifications

Grain	Aluminum oxide
Bonding	Low VOC resin system
Backing	PA net
Coating	Closed
Color	Yellow
Grit range	Soft, Medium, Coarse

FEATURES AND BENEFITS:

- Proven Abranet structure means high performance
- Unique soft construction reduces risk of over-sanding
- Flexible cushioned backing adapts to contours and corners
- Perfect for pole sanders, random orbital/rotary wall sanders, and hand blocks

AUTONET® • Discs

Technical Specifications

Grain	Aluminum oxide
Bonding	Resin over resin
Backing	Polyamide net
Coating	Closed
Color	Gray
Grit Range	P80, P120-P320, P400-P800

FEATURES AND BENEFITS:

- Excellent initial aggressivity
- Long life-span compared to paper-backed discs
- Eliminates clogging and pilling
- Developed specifically for the automotive repair industry
- Rolls have perforations every 2¾" making it simple to get the desired length
- Net abrasives are a key component for dust-free sanding

Technical Specifications

Grain	Ceramic/Aluminum oxide
Bonding	Low VOC resin system
Backing	Polyester film
Coating	Semi-open
Color	Blueish
Grit range	P40-P2000

FEATURES AND BENEFITS:

- Self-Sharpening grains continue cutting – from edge-to-edge
- New, sharp grains form as you sand
- Lasting sharpness means a long life and a fast cut
- Clog resistant coating repels dust to keep grains free to cut
- Scratch pattern of finer grits polishes out easily
- Higher grits can be used to polish with Polarshine® compounds

DID YOU KNOW

Optimized for superior dust extraction, the Mirka Multifit Backup Pad is specifically designed for use with 6" Galaxy Multifit discs. It's ideal for use during primer sanding in collision repair and marine applications.

The backing pad comes with a custom Multifit Pad Saver, which acts as a protective layer between the backing pad and the Galaxy disc, preventing wear and tear during continuous, aggressive sanding (also sold separately).

S = Standard stock NS = Only available from European Distribution Center. Production order: 3-4 weeks, minimum order quantities apply.

GALAXY

- Self-sharpening ceramic grains and precise grain coating.
- Multi-purpose use. Works well on both soft and hard materials.
- Consistent high quality and consistent scratch pattern.
- High edge wear resistance and a strong resistance to wear and tear.
- Multifit hole pattern that fits all types of backing pads without alignment.
- Improved dust extraction.

Technical Specifications	
Backing	Polyester film
Bonding	Low VOC resin system
Coating	Semi-open
Color	Blueish
Grain	Ceramic/Aluminium oxide
Grit range	40-2000

Technical Specifications

Grain	Aluminum oxide
Bonding	Resin over resin
Backing	D-weight / C-weight paper
Coating	Semi-open
Color	Gold
Grit range	P80-P800

FEATURES AND BENEFITS:

- Designed for both finishing and heavy stock removal
- Aluminum oxide grain delivers a fast, long lasting cut
- High strength resin bonding provides superior grain support
- Special stearate coating used to maximize resistance to clogging & loading
- Semi-open coat produces an even, consistent scratch pattern

IRIDIUM • Discs

Technical Specifications

Grain	Ceramic / Aluminum oxide
Bonding	Low VOC resin system
Backing	Latex C-paper
Coating	Semi-open
Color	Gray
Grit range	P40-P1000

FEATURES AND BENEFITS:

- Fast sanding and consistent scratch pattern saves you time and money
- Consistent quality and non-stick coating repels dust and provides a long disc life
- Effective multihole pattern delivers outstanding performance without clogging
- Premium paper backing offers remarkable flexibility and grain adhesion

Technical Specifications

Grain	Aluminum oxide
Bonding	Low VOC resin system
Backing	Polyurethane on foam
Coating	Semi-open
Color	Gray
Attachment	Grip
Foam thickness	5 mm
Foam density	30 kg/m3

NEW

FEATURES AND BENEFITS:

- Flexible, cushioned abrasive that dramatically increases control
- Protects from accidentally oversanding
- Removes just the right amount of primer and clear coat, reducing rework
- Designed to stay above the filler and prevent edge burn-through on primer
- Control textures and match factory finishes with confidence
- Fast, consistent prep saves time with uniform results every time

MICROSTAR® • Discs

Technical Specifications

Grain	Aluminum oxide
Bonding	Low VOC resin system
Backing	Polyester film
Coating	Semi-open
Color	White
Grit range	P800 - P 2500

FEATURES AND BENEFITS:

- Ideal for removal of runs, dust nibs and excess orange peel from topcoat finishes before repainting or buffing
- Resists loading for longer disc life
- Ideal for sanding fresh or soft clearcoat
- Leaves an even scratch pattern, which buffs out quickly on all types of automotive paints
- Film-backed discs have full resin bonded aluminum oxide grain

MIRLON • Discs

Technical Specifications

Grain	Aluminum oxide (VF), Silicon carbide (UF)
Bonding	Resin
Backing	Non-Woven
Coating	Three dimensional
Color	Maroon (VF), Gray (UF)

FEATURES AND BENEFITS:

- Double-sided, non-woven scuff pads for sanding, blending, and denibbing
- Consistent coating of abrasive grains produces a uniform scratch pattern
- Shallow, controlled scratch profile requires less coating for full coverage
- Three-dimensional pads draw in and collect dust

MIRLON 150mm

Grit	Mirkacode EAN Code	Transport Unit	Pack
P1	8511402001 6416868567540	60 pcs	10 pcs

POLARSTAR® SR • Discs

5 micron 7 micron

Technical Specifications

Grain	Aluminum oxide
Bonding	Resin over resin
Backing	Polyester film
Coating	Defined mono-layer coating technology
Color	Pale yellow (3A), Mint green (5A), Lilac (7A)
Attachment	Water-resistant PSA

FEATURES AND BENEFITS:

- Designed for spot repair of clearcoats
- Ideal for nib sanding to remove dirt or imperfections
- Excellent durability
- Suitable for wet sanding

POLARSTAR® SR 32mm Channel PSA

Technical Specifications

Grain	Aluminum oxide
Bonding	Resin over resin
Backing	P80 - P150: D-paper P180 - P500: C-paper P600 - P1500: B-paper
Coating	Semi-open
Color	Blueish
Grit range	P80 - P1500

FEATURES AND BENEFITS:

- Outstanding performance in automotive, hard wood, and composites
- Flexible, strong, latex paper backing
- High heat endurance
- Tight grain distribution provides a more consistent scratch pattern
- Extra hard grain material

Q.SILVER® ACE

- Premium abrasive with ceramic grains and paper backing
- The ceramic grains give a boost, especially when sanding harder applications
- Suitable for tougher sanding for both industrial applications and for automotive refinish surface finishing
- A strong resin bonding gives good grip adhesion to the backing

Technical Specifications	
Backing	Latex paper, D-paper/ C-paper
Bonding	Resin over resin
Coating	Semi-open
Color	Plum
Grain	Ceramic/Ceramic coated
Grit range	P80-P800

Technical Specifications

Grain	Aluminum oxide
Bonding	LResin over resin
Backing	Antistatic T paper / F paper
Coating	Semi-open with Selective Coating®
Color	Brown
Grit range	P40-P320

FEATURES AND BENEFITS: s

- Unique product with selective coating technology
- Extreme long life on wood sanding applications
- The unique coating resists burning the surface
- Recommended for hard wood types
- The structure keeps the work piece cleaner from wood dust
- Ideal for soft clogging materials

Effective product for sanding of hardwood surfaces.

ULTIMAX® LIGNO • Discs

Technical Specifications

Grain	Ceramic/Aluminum oxide
Bonding	Low VOC resin system
Backing	Latex paper, D-paper/C-paper
Coating	Semi-open with Selective Coating®
Color	Red
Grit range	P40-P400

FEATURES AND BENEFITS:

- An all-new abrasive for dust-free woodworking
- Unique hourglass shape increases sanding effectiveness and dust extraction
- Multifit universal hole patterns work with any tool and grip backing pad
- Dust-free sanding keeps the abrasive grain clean and cutting at all times
- Better air flow reduces heat during sanding
- Sustainable, energy-saving production process

JEPUFLEX® ANTISTATIC • Rolls

Technical Specifications

Grain	Aluminum/Silicon carbide
Bonding	Resin over resin
Backing	Antistatic T-paper/F-paper
Coating	Closed
Color	Maroon
Grit range	P36-P400

FEATURES AND BENEFITS:

- Strong, reliable, antistatic paper
- Full resin bonding and aluminum oxide grain guarantee durability
- Silicon carbide grain used in the coarsest grit
- Perfect for sanding of hard wood such as beech, birch, and oak
- Multi-purpose - works well on metal, plastic, and top coat

Styro System

Technical Specifications

Grain	Ceramic/Aluminium oxide
Bonding	Low VOC resin system
Backing	Latex paper, C-Paper
Coating	Semi-open
Color	Grey
Grit range	P40, P60, P80

FEATURES AND BENEFITS:

- Great for smoothing out textured walls, ceilings and foam panels
- Drastically reduce setup and cleanup time
- Large holes on pads and abrasives improve dust extraction capacity
- 9" diameter random orbital sander works quickly over large areas
- Iridium™ abrasive's non-stick coating resists clogs for long disc life
- Light, ergonomic LEROS® is available in two lengths: 57" and 35"

Polishing Compounds

POLARSHINE® 45

- A coarse and fast cutting polishing compound for hard surfaces and coatings
- Ideal for gel coat; both production and restoration processes
- Removes sanding scratches from P600 and finer quickly and permanently
- Removes heavy oxidation without sanding and restores colour and shine
- Can be used as a one-step polishing process for white and light colours
- Easy to use, water-based and silicone-free

POLAROS® RP 600

Rotary polishing redefined: power plus performance

A high-performance tool engineered to elevate professional polishing. With ergonomic excellence, advanced features, intelligent speed control, and quiet operation, it redefines the rotary polishing experience.

The POLAROS® RP 600 features a gearbox-free direct drive that significantly reduces noise levels, internal heat, and mechanical wear, resulting in longer service life and lower maintenance needs.

Built for precision and control, POLAROS features smart functions that make polishing cleaner, safer, and easier. With its sleek, low-profile design and robust 750 W brushless motor, POLAROS is well-suited for automotive, marine, and industrial applications.

FEATURES AND BENEFITS:

- Low, compact profile enables a firm grip, improved control, & greater comfort
- Light weight (3.86 lbs.) for effortless operation
- Multiple operating modes adapt to the job at hand
- Innovative speed control creates an easy, intuitive experience
- High-Performance 750 W brushless motor
- Soft backing pad included

TECHNICAL SPECIFICATIONS

	RP 600
Power/Current	750 W
Mains voltage	220–240 VAC
Speed	700–2500 rpm
Pad diameter	Ø 135 mm (5 5/16")
Weight	1.7 kg (3.8 lbs)
Degree of protection	II
Cable length	4.3 m
Noise level	58 dB
Vibration	1.1 m/s^2

Battery polishers

- Small, light and ergonomic. In other words, very comfortable to use.
- Gives you full freedom of movement as there are no disturbing cables or hoses.
- Economic to use; energy efficient with a quick-charging intelligent lithium-ion battery.
- Very low noise levels. Practically silent polishers.
- Bluetooth connectivity offers additional features via the myMirka app, such as vibrations measurement, RPM range management and auto-stop function (some are in-app purchase).

Complete control with Mirka's polishers

Experience worry-free polishing with the new cordless polishers, Mirka® ARP-B and Mirka® AROP-B. Light, ergonomic and optimized for spot repair polishing, the polishers are perfect for polishing bumpers and spoilers, but can also be used for paint rectification and polishing of small areas on vehicles and wooden surfaces.

Battery grinders

- Cordless unique tool that enable you to tackle jobs in hard-to-reach places
- User-friendly, light and ergonomic design with excellent balance
- Big spectrum in speed adjustment allow for a multitude of applications

Mirka® AbraClean

AbraClean is a patent-pending cleaning pad that makes it easier for you to remove fine sanding dust from your surfaces. This, in turn, enables optimal paint adhesion and great finish quality.

While the cloths and wipes traditionally used in surface preparation leave behind residues and fail to remove small particles fully, AbraClean offers impeccable dry dust removal. Simply attach AbraClean to a sander with dust extraction and sweep it over the surface you have just sanded. This new way of cleaning surfaces using a sanding tool, whether manual or automated, speeds up your surface finishing process considerably.

Mirka® Edge Guide

Precise Standard Edge Sanding

Pair the Mirka® Edge Guide with your DEROS® II for a reliable setup that delivers precise edge sanding every time. With its adjustable angle from 45° to 90°, it's ideal for standard edge sanding, bevel or chamfer work.

Easy to attach without additional tools, the Edge Guide offers a comfortable, ergonomic sanding experience for professionals and DIYers alike.

The Edge Guide comes fitted with replaceable felt pads that prevents marks and scratches where the Edge Guide meets the work surface, ensuring a flawless finish every time.

Mirka® DEROS II 550 and 650 (125 and 150 mm)

Mirka® DEXOS 1217/1230 M

Felt Pad for Edge Guide

Key Selling Points

- Suitable for every edge: raw, painted, filled, or processed
- Keeps the sander steady at the desired angle, preventing tipping or sanding through.
- Adjustable angle from 45° to 90° for different edge types and finishes
- Compact design – easy handling and clear visibility
- Tool-free attachment to DEROS II
- Quick and easy setup for a more efficient workflow

Mirka® Edge Guide, Mirka code: 8290150211
Use the Edge Guide together with tools: Mirka® DEROS II 550, Mirka® DEROS II 625, Mirka® DEROS II 650 or Mirka® DEROS II 680.
Compatible dust extractors: Mirka® DEXOS 1217 and 1230 M AFC
Accessories: Felt Pad for Edge Guide 3/Pack (Mirka code: 8290150221)
Recommended abrasives: Abranet®, Abranet® Ace, Abranet® Ace HD, Ultimax® Ligno, Mirka Iridium™

Mirka DEROS® RS

NEW

Heavy-duty Mirka DEROS RS 600: rotary movement, more powerful

The Mirka DEROS RS 600 is a new rotary sander for rough applications and general-purpose sanding. It is a heavy-duty sander suitable for a wide range of surfaces, providing the operator with a low noise level and smooth operation to reduce strain. The long-life brushless motor produces 750W of power.

Lightweight and low-profile

Made to withstand demanding use, the purposeful design of the new DEROS RS sander makes it instantly recognizable. Lightweight for its size at 1.80 kg and with a low 11.5 cm profile, it retains the hallmarks of the DEROS product family, including easy-to-use ergonomics and compatibility with Mirka dust-free sanding. During sanding, the Mirka DEROS RS extracts dust from around the backing pad as well as through the extraction holes on the pad and abrasive.

The sanding speed is adjustable between 700 rpm and 2,500 rpm, made easy with a clearly visible LED indicator. A special slow start function can be selected. To monitor vibration levels, the connectivity features of the Mirka DEROS RS 600 include myMirka app compatibility over Bluetooth®. Accessories for the Mirka DEROS RS include pad savers and a specially designed shroud to direct dust into extraction channels from the working surface.

Features

- Powerful & Lightweight
- Very low noise levels and minimal vibration
- RPM Led indication
- A shroud (incl.) guides dust in right direction when sanding with a pad saver
- Momentary switch function

Accessories

Pad saver

Mirka® DEOS II - Electric Orbital Sanders

- Compact and very light electric sander
- The high efficiency brushless motor exerts plenty of power
- The compact and very low profile gives a high maneuverability
- Excellent ergonomic design ensures that the sander can be used for long periods without fatigue
- Integrated vibration sensor and Bluetooth low energy technology
- The myMirka app is available on App Store and Google Play

Mirka® LEROS

WALL AND CEILING SANDER

180˚ flexible sanding head
- Practical and ergonomic to use

Dust-free perfection
- Dual suction ensures efficient dust extraction

Brushless motor
- Constant speed
- Less maintenance

Compact design
- Easy to sand hard-to-reach areas

Random orbital movement
- Smoother finish and easy to operate

Clear and easy control panel
- Variable speed control with a soft start function

T-shaped handle
- Possibility to use different grips
- Hose protection

Ergonomic
- Less stress on your body

Wall Sanders

Not only is the Mirka® LEROS the lightest, most compact and most advanced random orbital wall and ceiling sander, it enables perfect surface finishing results and a safe, clean working environment. Its dust-free efficiency dramatically reduces prep and cleanup time.

Plus, the award-winning LEROS is lightweight, putting less strain on operators' arms and shoulders. The large sanding head with 180° swivel helps to get the job done quickly. The long arm can sand ceilings without the need to climb ladders. The shorter arm of the LEROS-S is perfect for fitting into small spaces.

LEROS

LEROS-S

FEATURES AND BENEFITS:

- Lightweight – weighs approximately seven pounds
- Flexible sanding head – swivels to any angle
- 5 mm random orbital movement – provides better surface finish
- Full force system – no need to press
- Dual suction points – provides efficient dust extraction
- Two lengths available – LEROS (57") + LEROS-S (35")

Dust Extractors

- Professional dust extractors with high performance motors and turbines
- AutoStart function increases the lifetime of the motor and reduces noise
- 1230/1242 range has flat tops with space for storage and large wheels for manoeuvrability
- Top-of-the-range models have Automatic Filter Cleaning for convenience and consistent performance
- Hose and cable storage for more comfortable transportation
- Wide range of accessories; for instance HEPA filter for optimal air filtration (purchased separately)

Mirka® **DEXOS** AFC DUST EXTRACTOR

With a powerful ***brushless electric motor*** and numerous clever features, the DEXOS is quiet, impressive, and designed to facilitate your work. It offers a lot of options, but without compromising user-friendliness.

Handling the DEXOS is a breeze. The dust extractors are easy to manoeuvre and clean, and they are compatible with Mirka's cases, toolboxes, and hoses. When transporting your DEXOS, you can secure it in place with the ***built-in brake pedal***. Additionally, you can store the included 4-metre hose and cables in the compartment under the top lid.

Power level is easily selected from the backlit ***control panel*** on the front of the dust extractor, together with hose diameter adjustment, ***auto-start*** functionality on two sockets and Bluetooth pairing. A configurable ***multi-function button*** can be customised via the myMirka app.

1. Bluetooth pairing
2. Multifunction button
3. Automatic filter cleaning
4. Autostart from socket 2
5. Hose size setting (+ diam.)
6. Power level indicator
7. Power level adjustment
8. On/Standby (Autostart)
9. Start button

STANDARD
DUST CLASSES

Dust Class M

Dust Class M (medium risk). Suitable for wood dust and dust generated from repair compounds, fillers and clear coats, as well as plaster, cement, concrete, tile adhesive and paints such as latex and oil-based paints. It also applies to quartz-containing materials such as sand and pebbles.

The occupational exposure limit (OEL) for this type of dust is > 0.1 mg/m^3, which means the dust extractor must be able to retain ≥ 99.9% of the dust. The airflow in the suction hose must be at least Vmin = 20 m/s.

M class dust extractors may not be used for:

- Hazardous dust with OEL values < 0.1 mg/m^3
- Hot materials (burning cigarettes, hot ash)
- Flammable, explosive or aggressive liquids (e.g. petrol, solvents, acids, alkalis etc.)
- Flammable or explosive dust (e.g. magnesium or aluminium dust)

Dust Class L

Dust Class L (low risk). For dust with occupational exposure limit (OEL) values > 1 mg/m^3.

The dust extractor must be able to retain ≥ 99% of the dust.

For simple and harmless dust, e.g. household dust, soil and lime.

L class dust extractors may not be used for:

- Dust with OEL values ≤ 1 mg/m^3
- Carcinogenic or pathogenic dust (use H-class)
- Hot materials (e.g. burning cigarettes, hot ash)
- Flammable or explosive dust
- Flammable, explosive or aggressive liquids (e.g. petrol, solvents, acids, alkalis)

Adapter		Description
	8999804111*	1 Hose Ø 27 mm x 0,5 m + Connector. This conductive adapter enables a quick change in-between Mirka power tools. Fix the adapter on each tool and connect/disconnect to/ from any Mirka hose assembly with a Mirka branded adapter, both pneumatic: 8992514511 and 8992514711.
	8992515811*	2 a Mirka Connector for Air. Comes with hose 8992514511 and 8992514711.
	8992515911*	2 b Connector for Air + Hoses with threads. This adapter is close to the dust extractor, where the pneumatic tube/electical cable comes out. Comes with hose 8992514511 and 8992514711.
	8992515611*	3 Hose adapter Ø 32 mm / 54 mm for Mirka® Dust Extractors. Comes with hose MIN6519411, MIN6519211, MIN6519311, 8992514511 and 8992514711. This adapter goes from the hose into the dust extractor. Possible to connect MIE6511111 into this adapter during transport.
a b 	8394020311**	4 Hose Connector Kit No. 3–1 and 3–2 for Miro 955® & 955®-S. Adapter for both ends on the hose for Miro. Connector 4b: Ø 54 mm.
	8391111111*	5 Adapter Ø 20 mm / 28 mm for Mirka® Hand Sanding Blocks. Enables using the Ø 27 mm hoses (MIN6519411, MIN6519211 and MIN6519311) together with the blocks.
	8992515411*	6 Soft Connector Ø 25,4 mm. Enables connecting MIN6519411, MIN6519211 and MIN6519311 hoses to Mirka Decosander®, Mirka Dust Suction Hood and sanders of other brands. **Note!** Not suitable for Mirka® ROS.
	MIE6511111*	7 Quick connector Soft Ø 25,4 mm. Delivered together with all hoses except Miro hose and 20mm hoses. **Note!** Not suitable for Mirka® ROS.
	8993022011	8 Hose Swivel Connector Ø 20 mm / 20 mm. Enables connecting two Ø 20 mm hoses. For example: 2 x Ø 20 mm hose x 4 m hose (8391112011).
	8393001511*	9 Adapter Ø 30–48 mm for Dust Extractor. Can be cut to fit dust extractors of other brands.
	8993022911	10 Hose Swivel Connector Ø 20 / 25,4 mm. Enables connecting a Ø 20 mm hose with Ø 27 mm hose MIN6519411, MIN6519211 and MIN6519311.
	8391111211	11 Connector Air Inlet for Hand Sanding Block 20 / 20 mm. When fixed on a Mirka 20 mm dust extraction hose, this new connector enables a quick and smooth change of the hose from one Mirka hand sanding block to another. This connector enables adjusting the airflow.
	MIE6515911**	12 Mirka Sleeve for Hose and Cable 3,8 m
	MIE6515921**	13 Mirka Sleeve for Hose and Cable 5,8 m
	MIE6515931**	14 Mirka Sleeve for Hose and Cable 9,8 m

ABRALON®

- Unique foam based product for an ultrafine surface finish
- Leaves a smooth surface finish prior to polishing
- Suitable for all kinds of material, both smooth and profiled surfaces
- Speeds up the polishing process
- Long lasting thanks to the open weave construction
- Easy to use

Technical Specifications	
Backing	Knitted fabric on foam
Bonding	Special resin
Coating	Special ABRALON® method
Color	Grey
Foam density	33 kg/m2
Foam thickness	6.5 mm
Grain	Silicon carbide

Abrasive with foam backing is used for corrective sanding, matting and surface structuring. Best result when wet.

ABRANET®

- Multi-purpose net abrasive for dust-free sanding
- Extremely long life thanks to the net structure (up to 10 times longer than conventional abrasives)
- Recommended for various wood types, paints and lacquers
- Speeds up the surface finishing process
- Well suited for various solid surface types
- Suitable for all sanders regardless of hole configuration

ABRANET® MAX • Narrow Belts

ABRANET® MAX

- Abranet Max is an universal product suited for a broad variety of sanding applications
- Due to the net structure, lower pressure is needed when sanding and the product does not easily clog up
- The tough aluminium oxide grain gives a high cut rate on harder wood types and materials
- Extremely long lifetime compared to conventional products, which results in less belts needed for the job
- Less downtime in production due to changing of belts leads to cost savings
- More consistent surface finish means minimal quality variations in the process

IRIDIUM

- Fast sanding with aggressive initial cut and great stock removal
- Precision coating repels dust; prevents clogging and reduces pilling
- Increased lifetime as grains stay sharp longer with less wear and tear
- Flexible premium paper with low VOC resin has excellent grain adhesion
- Optimized dust extraction with multihole patterned discs and strips
- Efficient sanding of all surfaces for a smooth finish in fewer steps

Technical Specifications	
Backing	Latex paper, C-Paper
Bonding	Low VOC resin system
Coating	Semi-open
Color	Grey
Grain	Ceramic/Aluminium oxide
Grit range	40-1000

IRIDIUM 125mm Grip 89H

Premium paper abrasive for universal sanding. Perfected for speed and efficiency, it has a mix of ceramic and aluminium oxide grains on a flexible paper backing.

S = Standard stock NS = Only available from European Distribution Center. Production order: 3-4 weeks, minimum order quantities apply.

MIRKA

MIRLON TOTAL® • Strips

MIRLON TOTAL®

- Thin, flexible and three-dimensional
- Recommended for primer and sealer sanding applications where a fine surface finish is needed
- Ideal for profiles and contoured surfaces
- The Total Coating™ Technology makes the product more effective and speeds up the sanding process
- Ideal as last sanding step prior to top coat

Technical Specifications	
Backing	Non-woven
Bonding	Resin
Coating	Three-dimensional Total Coating™
Color	Red(VF)/Black(XF)/Grey(UF)/Beige(MF)
Grain	Aluminium oxide (VF)/Silicon carbide (XF,UF,MF)
Grit range	Very Fine - 360, Xtra Fine - 800, Ultra Fine - 1500, Micro Fine - 2500

MIRLON TOTAL® 115x230mm

Grit	Mirkacode EAN Code	Transport Unit	Pack
VF 360 Red	81112F0337 6416868253436	12 pcs	3 pcs
UF 1500 Grey	81112F0394 6416868632248	12 pcs	3 pcs

Flexible three dimensional fibre cloth for sanding, cleaning and structuring. Thinner, more open and more flexible than Mirlon. Suitable for all materials.

ABRASIVE RED

- The semi-open coating prevents clogging
- The flexible fleece backing give a smooth sanding experience
- Low risk for creating marks on the surface when sanding
- Long lifetime and good stock removal
